

## Math Assessment Corrections / Error Analysis Worksheet

<b>Original Problem</b> In this column, copy the original problem from the test.	<b>Correction</b> In this column, work the problem correctly, showing all work and circling your answer.	<b>Comments/Explanation</b> In this column, write an explanation of what you did wrong and a comment that might help you in the future.
<b>Example: Problem # 4</b> $(-7) - (+3) = -4$	$(-7) - (+3) = (-7) + (-3) = -10$	I forgot to change the subtraction problem to addition and then to change the sign of the second number to its opposite. Then add the two negative numbers together and include the negative sign in the answer.
